

Géométrie

Les figures planes

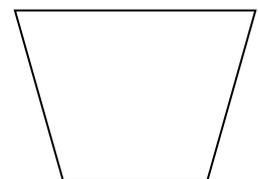

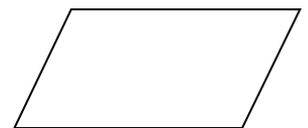

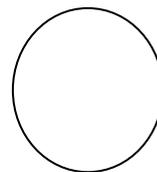

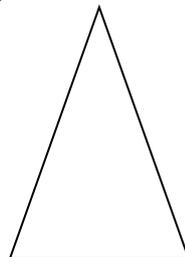

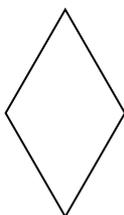

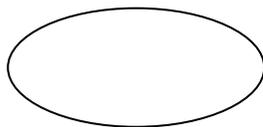

Les polygones sont des figures qui ont plusieurs côtés.

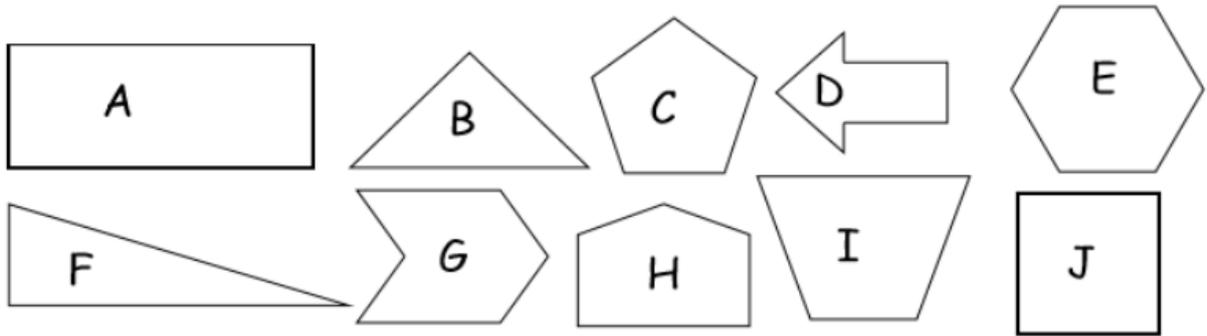

Observe et colorie les figures dont tu as besoin pour réaliser chaque dessin :

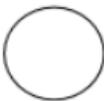

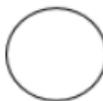

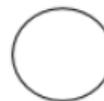

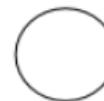

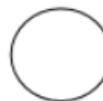

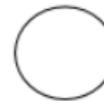

Colorie les figures qui sont des polygones :

Range la lettre de chaque figure au bon endroit dans le tableau :

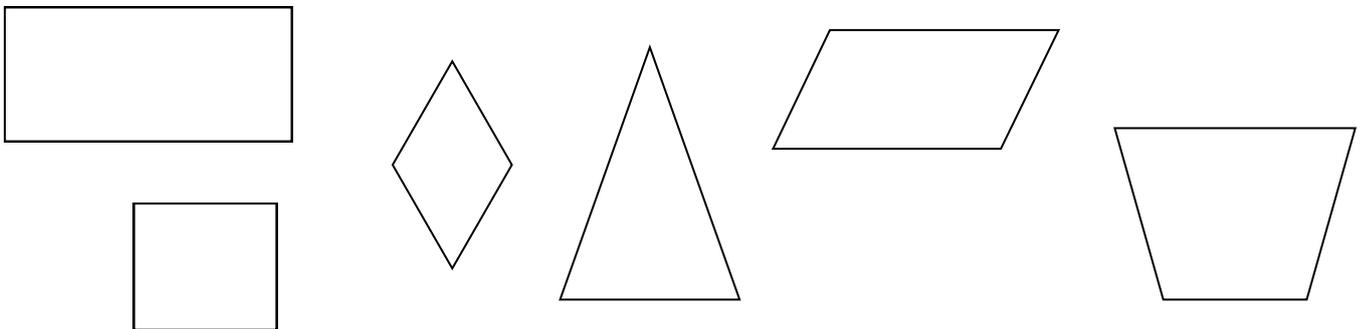

3 côtés	4 côtés	5 cotés	6 côtés
 	A  	 	 

Des côtés parallèles sont des côtés qui se suivent et ne se touchent jamais si on les prolonge.

Avec ta règle et tes crayons de couleur, repasse de la même couleur les côtés qui sont parallèles.

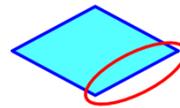

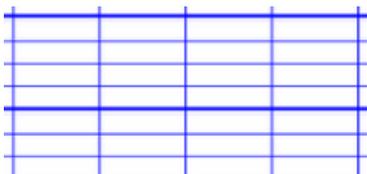

Ecris les mots au bon endroit

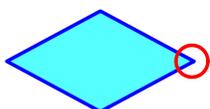

côté - sommet - parallèles - polygone

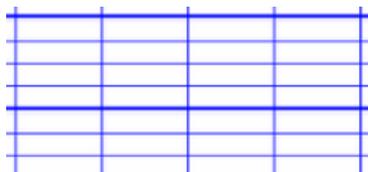

Cette figure est un

Ce qui est entouré est un

Ce qui est entouré est un

Les côtés rouges sont
